Hiroshima

What kept them going: (during & after
Operation
(early action?)

1) - desire of Hst + Byrnes
to drop Bomb - not really till August '45
(no opposition)

2) Does US promise not to press? (= conviction
Emperor (Sess-Hed) = Kengo)
(not, UK)

Emperor, Navy, For Min - must promise not

Army, Cos, Min - must promise not to press US
4? (No occupation

No US / Int. trials

(If any, Japanese trials)

So keep Hiroshima news not a concession of US

It wanted to -

most American but to promise it (which Emperor + wanted,
wanted Hiroshima "demand" - till Aug. 9 (SD, Nagasaki)

demanded would be seen as an unwilling concession
(as he demanded of many American (even to get surrender?)

as much as others

(Answer? Hiroshima?)

(Kis fuy - not aggressors
was asked?

Chi. & others, and many
officials (Kuro? West for
Hst, Byrnes (Ambassador, MacArthur)
were willing)

2.

If US had ^{promised} proceed trials for "all" (Emperor)
for Herman
(Viter suicide
Herman? Berman?
Blitz...)

then we would have had to invade, occupy -
Japanese fight to last child.

Not under it.

US did not promise not to press Hiro.
did not defect from UCS

But US did hint (under ambiguous statute)
that if right / powerful would (not, certainly)
not press Hiro

"Japanese people could choose the
regime (e.g. emperor, republic, democracy...
perhaps monarchy (restored))

but does "regime" = Hirohito?

If Hiro is imperial:
not a divine monarch

("you can have an emperor - but not me.
this one, Hirohito - as one witness from Berlin").

But the hint was enough for Hirohito - probably
as of midnight Aug. 2 (before Nagasaki: after
SU entry, not right after Hiroshima)

Waxer Hair - have computer (the
 before (big total that there would be)
 SU early?

Big right off alone
 + the world before SU would help
 do better (with history).
